668 Hoskin Ave. Winnipeg, MB R2K1Z8 • (204) 996 - 2485 • arbielhyn@gmail.com

EDUCATION

Red River Polytechnic

August 2023 - Present

Full Stack Web Development

- This program equipped me with a robust understanding of both the technical and managerial aspects of web development, ensuring a well-rounded skill set for tackling real-world challenges.
- Coursework: Communication Strategies, IT Foundation, Database Management Systems, Web Development 1 & 2, Programming 1, Project Management and Agile Business Analysis, OO Systems Analysis and Design, Business Requirements Gathering and Design.

Red River Polytechnic

August 2017

Business Administration

- I improved my business communication skills, learning how to write professional emails and communicate effectively with my peers. Additionally, I became proficient in using Microsoft Office tools like PowerPoint, Excel, and Word.

Kildonan East Collegiate

2013 - 2017

- Graduated with a dual diploma, majoring in Photography and Graphic Design

PROJECTS

Blog

January 2024

- Developed a blogging platform that enables authorized users to perform CRUD operation (create, update, delete) on posts.
- Implemented using PHP, with phpMyadmin database to store all post data.
- Features a comprehensive list view displaying all posts for easy navigation.

Weather Forecast

January 2024

<https://t.ly/hpcYm>

- Developed a React based website utilizing a weather API to provide real-time weather forecasts.
- Displays the weather forecast for any city queried, including the current conditions, two-hour interval forecast, and daily average for the week.
- Implemented a feature that dynamically adjusts the background color based on the current weather conditions of the searched city.

Road Closure Site

February 2024

<https://arbielhyn.github.io/Road-Closure/>

- Utilized an AJAX search form to enable users to search for road closures in the city of Winnipeg.
- Retrieved data from the Open Data API and integrated it into the site to provide up to date road closure information.

TECHNICAL SKILLS

Front-End Technologies: HTML, CSS, JavaScript, AJAX, JSON, React.js

Back-End Technologies: PHP, PostgreSQL

Platforms: Microsoft Teams and Slack
